

GOVPAYNET TERMS OF USE

GovPayNet provides transaction processing and associated support services to Users which enter into an Agreement with GovPayNet to participate in the GovPayNet Payment Network. Not every User, however, will utilize all services, technologies, or support options the GovPayNet Payment Network includes. Therefore, GovPayNet supplements each Agreement with these Terms of Use to the extent they apply to User's selected GovPayNet Payment Network options.

Entering into an Agreement constitutes User's acceptance of the applicable Terms of Use, which are then considered a part of the Agreement and effective when the Agreement becomes effective. If a User changes its use of the GovPayNet Payment Network so that Terms of Use that did not previously apply to User apply, the applicable Terms of Use become effective upon the date of such change.

In the event of a conflict between these Terms of Use and an Agreement, the Agreement will control. Capitalized words used in these Terms of Use are defined in the [Definitions](#) section.
